Dear ACO TIN Owner,

It has come to our attention that your practice may have Medicare patients that received claims for DME that they did not receive. Unfortunately, these costs are currently included in your ACO costs and performance. We would like to provide immediate support to help you share additional details regarding these DME claims with Medicare so they can investigate and potentially remove these claims. It increases Medicare's responsiveness if you get signed patient attestations that they did not receive DME, but Medicare was still billed. We have prepopulated these attestations for your convenience and sent to your attention.

We plan to submit your attestations along with a comprehensive report to Medicare. We will follow up in one week to make initial collections and make final collections in two weeks. Please do the best you can as your results may have a direct impact on your performance.

Your practice, providers and patients are additionally encouraged to submit claims to Medicare using the below link.
